ABOUT

I am a highly motivated, self-starter with a keen interest in human behavior and emerging technologies and how both are influencing each other. I am trained with design research methodologies (both Qualitative and Quantitative) and tools that allows me to forge strategic design insights to create influential products, UI/ UX services, and business experiences with the help of storytelling. I am looking for opportunities that offer professional challenges utilizing interpersonal skills, excellent time management, problem-solving skills, efficient teamwork strategy and leadership.

WORK EXPERIENCE

White Carbon Motors, Gandhinagar, Gujarat - *Design Strategist* | Oct 2021 - Dec 2021

- Conducted Primary Research & Secondary Research with various stakeholders such as Users, Dealers, Service Teams, and identified impact areas for strategic business interventions, brand interaction and user experience.
- We brainstormed using design thinking with peers and other design team members to determine enhancements and product features for existing electric vehicles (EVs).
- Proposed enhanced product-to-market fit for White Carbon's existing vehicle lineup and new market strategy as a long-term plan.
